

# WATER SERVICE LINE CUSTOMER SURVEY

On June 28, 2023, the EPA released the Small Entity Compliance Guide to support water systems, particularly small water systems, in complying with the Lead and Copper Rule Revision (LCRR) initial inventory requirements. The LCRR requires water systems to prepare and maintain an inventory of service line materials. Initial inventories are required to be submitted to state primary agencies by October 16, 2024.

Please complete the brief survey below to see if your line contains lead.

Return the completed survey form and a photo of your service line to us as soon as possible.

## GENERAL INFORMATION

Name: \_\_\_\_\_

Physical street address (do not list P.O. Box): \_\_\_\_\_

Phone number: \_\_\_\_\_ Email: \_\_\_\_\_

Home/building build date: \_\_\_\_\_
